PROFESSIONAL SUMMARY

Full-Stack Developer experienced in building modern web applications and SaaS products using Next.js, React, TypeScript, Node.js, Express, MongoDB, Convex, Clerk, and Tailwind CSS. Skilled in REST APIs, authentication and role-based access control, real-time applications, database-driven systems, responsive UI development, and deployment. Focused on writing maintainable code and delivering practical, production-oriented solutions.

EXPERIENCE

Full-Stack Developer

Digital Land For Computer Systems – Remote | Jan 2026 – Present

- Work full-time as a Full-Stack Developer, building and maintaining modern web applications.
- Develop frontend and backend features using Next.js, React, TypeScript, Node.js, and Express.
- Work with database-driven applications, authentication, REST APIs, and responsive user interfaces.
- Collaborate on implementing business requirements and delivering complete features from development to deployment.

Software Tester

I.T Square – Alexandria, Egypt | Mar 2025 – Dec 2025

- Worked as a Software Tester on the "El-Madmon" project.
- Performed manual functional testing, designed and executed test cases, and reported defects.
- Documented test results and worked with the development workflow to help ensure software quality.
- Built practical experience in software testing, defect identification, and attention to detail.

Frontend Developer (Trainee)

ROUTE Academy – Alexandria, Egypt | Jun 2025 – Dec 2025

- Completed an intensive frontend development program focused on real-world applications.
- Built responsive web applications using React and Next.js.

EDUCATION

Bachelor of Software Engineering

Arab Academy for Science, Technology & Maritime Transport (AAST) – Alexandria, Egypt | 2020 – 2024

PROJECTS

SERVIX - Restaurant POS & Management SaaS (Next.js, TypeScript, Convex, Clerk)

Live: <https://restaurant-system-management-lake.vercel.app/>

- Built a full-stack SaaS platform for restaurants with POS, QR Menu, order management, tables, payments, analytics, subscriptions, and role-based access.
- Designed a scalable multi-tenant architecture using Convex real-time database, Clerk authentication, and a responsive Next.js frontend.

Hospital Management System (Next.js, TypeScript, Convex, Clerk)

Live: <https://hospital-system-omega.vercel.app/>

- Built a full-stack hospital system with authentication, role-based access for Doctor/Admin, and a real-time dashboard.

E-Commerce Platform (Next.js, TypeScript, Tailwind, NextAuth)

Live: <https://heavenly-tawny.vercel.app/>

- Developed an e-commerce application with authentication and responsive UI using Next.js and Tailwind CSS.

Social Media Application (React, Vite, Tailwind)

Live: <https://social-app-eight-psi.vercel.app/>

- Built an interactive social platform with dynamic state management and responsive UI.

CORE TECHNOLOGIES

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React, Next.js, Tailwind CSS, Bootstrap, shadcn/ui

Backend: Node.js, Express.js, REST APIs

Databases & Backend Platforms: MongoDB, Mongoose, Convex, Clerk

Tools: Git, GitHub, Vite, npm, NextAuth.js

Deployment: Vercel, CI/CD workflows

Project Management: Jira, Trello, ClickUp

ADDITIONAL SKILLS

- Strong problem-solving and analytical thinking
- Attention to detail and clean code practices
- Fast learner and adaptable to new technologies
